This is a complete list of the STARFLEET Academy's active courses at this time. It is a checklist and reference for the personal use of members, such as a check off of courses you have taken or courses you may want to take in the future. It is also a catalog for our offline members. RETIRED or PENDING Colleges do not appear here.

Since there may be new Courses and Colleges or a change in personnel since this document was released (and before the next update) please consult the STARFLEET Academy web site for the most current listings.

You now have two ways of requesting courses from STARFLEET Academy:

1) E-mail the director and ask for the exams you want. Students who live outside the USA are encouraged to conduct their studies by e-mail. *

2) Send a letter to the director indicating what exams you want. If you are going to conduct your correspondence by mail, please send the required tuition and stamps stated on the college web page. This covers all expenses the director incurs by sending you exams and diplomas through the USPS. Directors who live outside the USA will have "postal buddies" inside the US to handle mail from the USA. Your request must include, at a minimum: Name, SCC#, and Course number/title being requested.*

* NOTE: If there has been a director change since this issue of the printed catalog, most former directors will forward your mail or e-mail to the right person. Course directors have real-world lives too, so please be patient. However, if you have not heard from the director in 8 weeks (by postal mail) or 2 weeks (by e-mail), contact Carol Thompson at betazoid@mosquitonet.com.

Corrections to this catalog should be directed to: Commodore Franklin Newman III at franklinnewman3@gmail.com
