STARFLEET MARINE CORPS

Organizational Manual

2005 EDITION

Acknowledgements

This manual could not have been created without the grateful assistance of the following Marines:

Scott Akers
Scott Grant
John Roberts

Pronoun Disclaimer

In this manual, "he", "him", and "his" are used following the standard English-language grammatical convention to use these forms for gender-nonspecific pronouns. No sexist bias is intended. The convention is used merely for ease of writing and reading. There have been and hopefully always will be plenty of female members in the SFMC, and no slight to them is intended.

TABLE OF CONTENTS

SECTION 1 - Introduction

This manual is intended to impart the basic organizational structure of the fictional STARFLEET Marine Corps. It is not intended to reflect the real world organization or composition of the SFMC. This manual also contains sample "standardized" Tables of Organization and Equipment (TO&E) for many types of SFMC Units, Battalions, Brigades and Division set ups, again, for reference to the fictional SFMC organization. These TO&E's are provided to aid you in creating your own unit's TO&E and, possibly, the TO&E's for your battalion and brigade. It is hoped that we can have all units of the SFMC create their Tables of Organization and Equipment and forward them up the chain to create the entire TO&E for the STARFLEET Marine Corps.

SECTION 2 - How Does the SFMC Get to the Front Lines for Combat Deployment?

Simple, we call our Taxi Service, STARFLEET. The SFMC must rely on transportation from STARFLEET vessels to get to the frontlines to carry out our combat missions as assigned. STARFLEET vessels also provide valuable resources for forward deployed Marine Units in addition to transportation duties:

1. Recreational facilities (Holodecks, 10-Forward, other secure areas for rest and relaxation, etc…);
2. Superior medical facilities to supplement any Battalion Aid Stations and Mobile Surgical Hospitals that may be deployed;
3. Resupply activities;
4. Additional repair/maintenance facilities;
5. Orbital Bombardment support when necessary; and,
5. Orbital defense suppression for initial insertion and combat activities; and,
6. They help make sure the bad guys do not come in behind your back while you are on the planet and bombard YOU from orbit.

SECTION 3 - Basic Organization Terms and Concepts

3.01 What is a Billet?
A billet is the position held by a Marine. It can be as low as the Marine Rifleman in an Infantry MSG all the way up the General Staff officers and the Commandant of the STARFLEET Marine Corps.

3.02 What is a Grade?
Simply put a Grade is the rank held by a Marine expressed in the numerical form (E-8, O-4) versus the title of the rank (Gunnery Sergeant, Major).

3.03 Billet vs. Grade
Billet (position held) always trumps Grade (rank held). That means the higher position will always hold sway over a higher rank if they hold a lesser position. For example, a Lt. Colonel serving as the Battalion Officer-in Charge of the 9th BN, 34th BDE, tries to override the commands issued by the Colonel in charge of the 1234th MSG of the 9th BN because they are not in keeping with the performance of the assigned mission. The BN OIC's orders will trump and override the orders of the Colonel in charge of the MSG. The same is true if the Commandant of the Marine Corps held the rank of Colonel and a BDE OIC who held the rank of Brigadier General gave conflicting orders to carry out a mission, the orders of the Commandant, even though he is of a lower rank, would carry the day by virtue of his holding the higher placed Billet.

3.04 Table of Organization and Equipment
Tactical units (units which will deploy to accomplish the mission) are organized according to an established Table of Organization and Equipment (referred to as a TO&E). These TO&E's prescribe the amount and types of personnel and major equipment (e.g., radios, weapons, vehicles, etc.) which are authorized for each unit. The TO&E for a specific type of unit, e.g., an Infantry Platoon, is generally the same throughout the SFMC. However, the standard TO&E may be modified (Modified TO&E) to suit particular mission requirements of a unit. For example, an Infantry Platoon Rigel VII may have different types of vehicles than those found in similar units on Coridan III. Samples of TO&E's for the various Branches of Service are located in Appendix A of this manual.

3.05 Table of Distribution and Allowances
Non-tactical units (units that are not designed to conduct combat operations), such as an installation garrison unit, are also organized according to established levels of personnel and equipment. For these types of units and organizations the tables are referred to as a Table of Distribution and Allowances (referred to as a TDA).

3.06 SFMC Garrison Forces
The SFMC also has a Garrison Force Component that makes up approximately 1/3 of the total strength of the SFMC (2 of the 7 Divisions). The Garrison forces are composed of Marines teaching at the SFMCA, serving with the various SFMC Honor Guards, Drill Teams and Ceremonial Embassy Guards as well as marines who serve non-combat support roles and are designated as "non-deployable" for whatever reason (prison guards, etc…). These marines are no less important than those who serve in the Fleet Marine Forces and deploy to combat situations as ordered. However, due to the various natures of the SFMC Garrison Forces, they are not covered in this manual (if we did cover them, it would take several volumes to detail the various types of garrison forces, their strengths and needs).

3.07 SFMC Functional Units (Fleet Marine Forces)
The tactical/Fleet Marine Forces segment of the SFMC is organized into three major types of functional units:

Combat Arms
Combat Support
Combat Service Support

There are 9 branches identified within these functional categories. Some branches, such as Engineer and Aviation, provide duties in one or more functional categories. Each branch is identified by a distinct insignia, as shown below.

3.07.1 Combat Arms (CA)
The major mission of these Branches of the SFMC is to engage and destroy opposing forces with firepower and maneuver. The six (6) Combat Arms Branches are:

Branch	Description
Aerospace*	A Combat Arms branch that employs aviation assets (Atmospheric and Aerospace) to find, fix and destroy the enemy through fire and maneuver. Aviation also provides Combat Support and Combat Service Support functions such as heavy lift capability, aero medical evacuation and troop airlift.
Armor	A Combat Arms branch with the mission to close with and destroy the enemy using fire, maneuver and shock effect, to include Cavalry units with the missions to perform reconnaissance, provide security and engage in full spectrum of combat operations.
Infantry	A Combat Arms branch with the mission to close with the enemy by means of fire and movement to defeat or capture him, or repel his assault by fire, close combat and counterattack.
Maritime Operations	A Combat Arms branch that employs maritime (wet naval) assets to find, fix and destroy the enemy through fire and maneuver upon the water and coastlines. Maritime Operations also provides Combat Support and Combat Service Support functions such as heavy lift capability, medical evacuation and troop transportation when called for upon water.
Mecha	A Combat Arms branch that provides light- to heavy-weight Mechanized Combat Units to conduct special reconnaissance, small scale, direct action strikes and offensive actions against specific targets to destroy, capture or recover designated personnel or materiel. These Units are also designed to provide additional fire support and shock value in the initial stages of planetary landings and other offensive operations.
Special Operations	A Combat Arms branch that provides rapid response to various military contingencies, to include unconventional warfare, foreign internal defense, special reconnaissance, anti-terrorist combat and small scale, direct action strikes and offensive actions against specific targets to destroy, capture or recover designated personnel or materiel.

* branches which provide multiple functions

3.07.2 Combat Support (CS)

The one (1) Combat Support branch, which provides operational assistance to Combat Arms, is:

Combat Engineers*	A Combat Support branch that provides support to maneuver commanders in mobility (river crossings, gap crossings, obstacle clearance), counter mobility (obstacle emplacement, demolitions), survivability (tracked vehicle fighting positions, site hardening), general engineering (infrastructure development) and topographic (mapping) missions. Engineers also perform Combat Arms functions (fight as Infantry) and Combat Service Support (logistics) functions.

* branches which provide multiple functions

3.07.3 Combat Service Support (CSS)

The two (2) Combat Service Support branches are:

Medical	The SFMC Medical Branch provides full health services to the SFMC to include the Medical Corps (doctors, surgeons), Nurse Corps, Dental Corps, Veterinary Corps, Medical Service Corps (sanitation, environmental quality) and Medical Specialty Corps (medical supplies and services).
Support	A Combat Service Support branch that provides the critical resources and capabilities to arm, fuel, transport and maintain materials and supplies for the Combat Arms and Combat Support branches, and to ensure the health and lives of the fighting forces.

3.08 Battlefield Operation Systems

Battlefield Operating Systems (BOS) define the interactions and linkages, from a systems perspective, of how the SFMC fights. There are seven Battlefield Operating Systems. The branches that are normally associated with each BOS are shown.
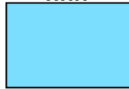

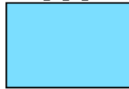

1. Maneuver (*Infantry/Armor/Special Operations/Aviation*)
   The tactical movement, positioning, and massing of forces on the battlefield.

2. Air Defense (*Armor-Air Defense Artillery*)
   The targeting and engagement of enemy aircraft and missiles through direct and indirect fires.

3. Fire Support (*Armor-Field Artillery* and *Maritime Operations-Shore Bombardment*)
   The targeting and massing of indirect fires to destroy enemy personnel and battlefield systems.

4. Mobility/Counter Mobility (*Combat Engineers*)
   The removal or destruction of natural and man-made obstacles to movement by friendly forces and the placement of obstacles to slow down or impede enemy movement of forces.

5. Battle Command (*Support-Signal/Military Police*)
   The direction of forces on the battlefield through electronic means (e.g., radios) and traffic control.

6. Military Intelligence (*Support-Military Intelligence*)
   The collection, analysis and interpretation of human and tactical information about the enemy, its capabilities and the battlefield environment.

7. Logistics (*Support-Ordnance/Quartermaster/Transportation*)
   The critical resources and capabilities to arm, fuel, transport and maintain materials and supplies and to ensure the health and lives of the fighting forces.

3.09 Echelons

The SFMC is a hierarchical organization with various elements (echelons) of units arranged from Corps level (highest) to Squad level (lowest). Generally, each organization is replicated from three to five times to form the next larger element. As the echelon size increases additional support components are also added to the tactical organizations, which increase the overall size of the echelon. Echelons from highest to lowest level:

Echelon/Unit	Unit Size Indicator/Map Symbol
Corps	XXX
Division	XX
Brigade	X
Group/Regiment	|||
Battalion/Squadron	||
Company/Troop/Battery		
Platoon	•••
Section	••
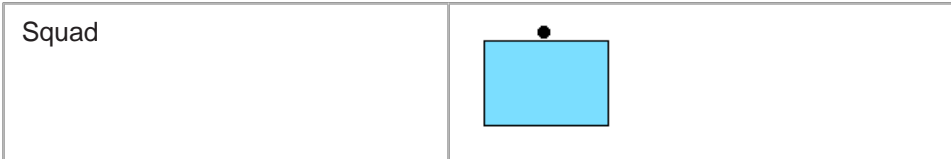

Squad	

Each echelon of a tactical unit is supervised by a non-commissioned officer (NCO) or commanded by a commissioned officer, depending upon the level. Non-commissioned officers lead squads and sections.

Warrant Officers (while technical specialists and usually not placed in Command positions) due to casualties or other needs, may be forced to serve as Unit Commanders or deputy Commanders. In this type of situation, a Warrant Officer will serve only as a temporary Commander and never for units above the MSG/Company level. Warrant Officers may also hold any post in the TO&E that would normally be held by a senior NCO that is of a technical nature (technicians, pilots, medics, specialists, etc…)

Commissioned officers command units from Platoon to Corps. Echelons above Company have component staffs of NCO's and officers that directly assist the commanding officer in the operations of the units within the echelon.

3.09.1 Squad/Section/Element – 8 Personnel
The Squad, normally 8 marines, is the lowest element in the SFMC organizational structure. The leader is a non-commissioned officer, usually a Sergeant (E-5) or Staff Sergeant (E-6). In some units two Squads may compose a Section led by a Staff Sergeant (E-6).

In an Armor (Tank/Cavalry) unit the term Section is used in lieu of Squad. A Section consists of two vehicles (e.g., AFV/99 "Patton" Armored Fighting Vehicle). Each tank has a crew consisting (usually) of four personnel. Aerospace Units refer to this as an Element and it is composed of a single group of four craft.

3.09.2 Platoon/Flight - 16 Personnel
The Platoon is the basic combat unit capable of maneuvering in the conduct of combat operations. The Platoon is usually commanded by a commissioned officer (Lieutenant, O-1/O-2) and assisted by a Platoon Sergeant who is a Gunnery Sergeant (E-7).

A Platoon consists of three Squads/Sections depending upon the type of unit. A Tank Platoon consists of twelve tanks (e.g., AFV/99 "Patton" Armored Fighting Vehicle), organized into three Sections of four tanks each. Aerospace Units refer to this as a "Flight" and it is usually composed of three, four craft, elements.

3.09.3 Company (MSG)/Troop/Battery/Squadron – about 80 Personnel

The Company is a cohesive tactical sized unit that can perform a battlefield function on its own. This is the size/type of unit for the individual Marine Strike Groups within the current structure of the STARFLEET Marine Corps. It is capable of receiving and controlling additional combat, combat support or combat service support elements to enhance its mission capability. The Company has a small Headquarters element to assist the Commander. Typically, two platoons form a Company, with about 80 Marines and their assigned equipment. The Company is usually commanded by a Captain (O-3). A First Sergeant (E-8) is the commander's principal non-commissioned assistant.

Depending upon the type of unit, a Company may be called a Troop or Battery. Ground or Air Cavalry units (armor and aviation units specially trained for reconnaissance missions) refer to these elements as Troops. Artillery Units refer to this level as batteries. Aerospace units refer to these elements as Squadrons.

It is possible for Non-Special Operations Units to be tasked to carry out the job of a SpecOps force when no other forces are available. In order to be qualified to carry out these missions, the unit in question must be designated as Special Operations Capable ("SOC"). In order to achieve this designation, the unit must undergo rigorous training and education in the ways of the SFMC Special Operations forces and be ready at a moment's notice. In order to achieve the SOC designator for your unit, the following conditions

must be met:

1. The Unit OIC, DOIC and Senior Enlisted Marine must have passed SO-20 (SO-30 is preferred); and,
2. At least ½ of the marines assigned to your unit must have passed SO-10.

Once these requirements have been met, your unit will be permitted to add the SOC designator to your unit description. SOC Unit's look like this when written out:

XXXth MSG, Aerospace (SOC).

3.09.4 Battalion/Squadron/Air Wing – 300-500 Personnel

The Battalion is a unit that is both tactically and administratively self-sufficient. In war fighting, Battalions are capable of independent operations of limited duration and scope. The Battalion is typically composed of four to six companies/MSGs, and is usually commanded by a Lieutenant Colonel (O-5), with a Command Sergeant Major (E-9) as the primary non-commissioned officer assistant. The Commander has a Battalion Staff of officers and non-commissioned officers to oversee missions, training, administration and logistics. The size of a Battalion can vary between 300 –500 Marines. A Battalion Task-Force (TF) is a Battalion-size unit with additional companies/MSGs attached in direct support to enhance mission capability.

In Cavalry units (both air and ground), the Battalion is referred to as a Squadron. Aerospace Units refer to this level as a Marine Air Wing.

3.09.5 Brigade/Group/Regiment - 1,000-2,500 Personnel

A Brigade is a significantly large unit, consisting of 3-5 Battalions/Squadrons and between 1,000 and 2,500 soldiers that can be employed on independent or semi-independent operations. The Brigade is usually commanded by a Colonel (O-6) or Brigadier (0-7), although in some cases a Brigadier General may assume command. The Command Sergeant Major (E-9) is the principal non-commissioned officer assistant.

During combat operations each of these Brigades have a field artillery battalion, engineer battalion, aerospace battalion (Marine Air Wing) and combat service support battalion in direct support. Brigades also exist in combat service and combat service support branches (e.g., Engineer Brigade, Signal Brigade).

Armored Cavalry units of this size are referred to as Regiments (Armored Cavalry Regiment). Ranger and Special Forces units are referred to as Groups. Aerospace Units refer to this level of organization as an Air Group.

3.09.6 Division – 4,000-15,000 Personnel

The Division performs major tactical operations and can conduct sustained battles and engagements. Four to six brigades normally compose a Division. Divisions are numbered and are categorized by the most prevalent Branch of Service within the Division. The Division is usually commanded by a Major General (0-9) or Lieutenant General (O-10) who is assisted by two principal Brigadier Generals (0-8) who perform duties as Assistant Division Commanders (ADC) - one for Maneuver (ADC-M) and one for Support (ADC-S). The Command Sergeant Major is the principal non-commissioned officer assistant. Divisions are typically composed of three (3) tactical maneuver (Infantry and/or Armor) Brigades and a Division base of combat support and combat service support elements.

3.09.7 STARFLEET Marine Corps - Seven Divisions (28,000-105,000 Personnel)

The Corps is the ultimate level of command required to synchronize and sustain combat operations. It also provides a framework for multi-planet operations. The Corps provides command, control and logistical support of all seven operational divisions of the SFMC.

The Corps is usually commanded by a General (O-11) or Lieutenant General (O-10), and is assisted by the Deputy Commandant (a General Officer, usually a Major General (O-9) or Lieutenant General (O-10)), Sergeant Major of the SFMC, the General Staff (Commanding Officers of Forces Command, Information Command, and the Training and Doctrine Command) and an extensive Corps staff. The location of the Headquarters for each of these officers is as follows:

Commandant/Deputy Commandant of the SFMC:
STARFLEET Marine Barracks, 8th and I Streets, Washington, DC, USA, Earth, Sol System

Sergeant Major of the SFMC:
STARFLEET Marine Barracks, 8th and I Streets, Washington, DC, USA, Earth, Sol System

Commanding Officer, Forces Command:
STARFLEET Marine Corps Headquarters, Quantico, Virginia, USA, Earth, Sol System

Commanding Officer, Information Command:
STARFLEET Marine Corps Headquarters, Quantico, Virginia, USA, Earth, Sol System

Commanding Officer, Training and Doctrine Command:
Valley Forge Station, New Valley Forge System

3.09.8 Major Commands

There is one further, non-combat, organizational unit of the STARFLEET Marine Corps. The three (3) Major Commands (Forces Command, Information Command, and Training and Doctrine Command) of the SFMC are charged with overseeing day to day operations of the SFMC and reporting directly to the Commandant and Deputy Commandant. Commands are usually commanded by a Brigadier (O-7), Brigadier General (O-8) or Major General (O-9), and is assisted by one or more Deputy Commanding Officer(s) (usually a Colonel (O-6), Brigadier (O-7) or Brigadier General (O-8)), Command Sergeant Major for the Command, and an extensive staff as needed.

3.09.8.1 Headquarters/Headquarters Support Staff above Unit Levels

The following staff members (below the Deputy Officer in Charge) are suggested as key staff members for all units of the SFMC, above the level of the Marine Strike Group). The only difference is that for the Divisional level organization; the prefix becomes "G" instead of "S" and the staff officers below each member of the Divisional staff officers report to the divisional staff officer in addition to their Battalion, Squadron, Brigade, Group, or Regimental Commander and his deputy. The positions are:

3.09.8.2 S-1: Administration

This officer, and his/her staff, is responsible for handling the day to day administrative needs of the unit (payroll, personnel transfers, promotions, awards, etc…) and reports directly to the unit OIC (and any Divisional level G-1, that may be in place). This post is usually held by a Captain (O-3) for the Battalion/Squadron Level, a Major (O-4) or a Lt. Colonel (O-5) at the Brigade/Group/Regiment level or a Colonel (O-6), Brigadier (O-7) or a Brigadier General (O-8) at the Divisional level. These officers are assisted by a Staff Sergeant (E-6) at the Battalion/Squadron level, a Gunnery Sergeant (E-7) at the Brigade/Group/Squadron level or a First Sergeant (E-8) at the Divisional level as the shop NCO.

3.09.8.3 S-2: Intelligence

This officer, and his/her staff, is responsible for handling the day to day intelligence needs of the unit (maps, briefings, research, POW interrogations, etc..) and reports directly to the unit OIC (and any Divisional level G-2, that may be in place). This post is usually held by a Captain (O-3) for the Battalion/Squadron Level, a Major (O-4) or a Lt. Colonel (O-5) at the Brigade/Group/Regiment level or a Colonel (O-6), Brigadier (O-7) or a Brigadier General (O-8) at the Divisional level. These officers are assisted by a Staff Sergeant (E-6) at the Battalion/Squadron level, a Gunnery Sergeant (E-7) at the Brigade/Group/Squadron level or a First Sergeant (E-8) at the Divisional level as the shop NCO.

3.09.8.4 S-3: Training and Operations

This officer, and his/her staff, is responsible for handling the day to day training and operational needs of the unit to make sure that the unit is mission ready at all times (ensuring that all Marines are qualified, arranging schools as needed, arranging exercises, etc..) and reports directly to the unit OIC (and any Divisional level G-3, that may be in place). This post is usually held by a Captain (O-3) for the Battalion/Squadron Level, a Major (O-4) or a Lt. Colonel (O-5) at the Brigade/Group/Regiment level or a Colonel (O-6), Brigadier (O-7) or a Brigadier General (O-8) at the Divisional level. These officers are assisted by a Staff Sergeant (E-6) at the Battalion/Squadron level, a Gunnery Sergeant (E-7) at the Brigade/Group/Squadron level or a First Sergeant (E-8) at the Divisional level as the shop NCO.

3.09.8.5 S-4: Logistics

This officer, and his/her staff, is responsible for handling the day to day logistical needs of the unit (supplies, vehicles, movement orders, ammunition supplies, etc…) and reports directly to the unit OIC (and any Divisional level G-4, that may be in place). This post is usually held by a Captain (O-3) for the Battalion/Squadron Level, a Major (O-4) or a Lt. Colonel (O-5) at the Brigade/Group/Regiment level or a Colonel (O-6), Brigadier (O-7) or a Brigadier General (O-8) at the Divisional level. These officers are assisted by a Staff Sergeant (E-6) at the Battalion/Squadron level, a Gunnery Sergeant (E-7) at the Brigade/Group/Squadron level or a First Sergeant (E-8) at the Divisional level as the shop NCO.

APPENDICES

SECTION 4 - Appendices

4.01 Appendix A: MSG Tables of Organization and Equipment

The following Sample Tables of Organization and Equipment only list some equipment for each Marine/ Unit that may be "standard issue." If not listed, it is assumed that each marine is issued a phaser rifle/ Carbine, phaser pistol and other equipment necessary to the performance of his job within that Unit. Units will be issued equipment as listed or as necessary to perform their assigned tasks and that equipment may change on a regular basis. For that reason, very little in the way of equipment has been listed for each of the sample units. It is up to the Unit OIC/Command Personnel to list what would be necessary for their unit to complete the tasks that are routinely assigned to them by SFMC Headquarters when they are completing their own unit specific Table of Organization and Equipment.

4.01.1 Aerospace (Space Combat) (86 Marines)

Headquarters Element (E-5B Paladin)
(Not required, when not available, Alpha Flight HQ Team is Headquarters HQ)

Strike Group Officer-in-Charge	603	O-4
Strike Group Non-Commissioned-In-Charge	605	E-7
Strike Group Executive Officer	603	O-3
Strike Group Communications Coordinator	605	E-5
Squadron Flight Maintenance Sr. Instructor	610	E-7
Squadron Flight Maintenance Instructor	610	E-7
Medical Detachment Leader-Flight Surgeon	221	O-5
Flight Certification Counselor	250	O-3
Medical Officer-Thorasic Surgery Specialist	222	O-4
Medical Officer-Orthopedic Surgery Specialist	222	O-4
Intelligence Detachment Leader-Tactical Intel Officer	145-L	O-2
Intelligence Specialist-All-Source Intel Specialist	145-B	E-7
Intelligence Specialist-All-Source Intel Analyst	146-B	E-7
Intelligence Specialist-Imagery Analyst	146-G	E-7

Alpha Flight (Fighter/Attack)
Lead Element (F/A-35 Barracuda)

Alpha Flight OIC/ Element Leader (AL1 Pilot)	624	O-3
Alpha Flight NCOIC (AL1 RIO)	634	E-7
Lead Element Pilot (AL2 Pilot)	624	O-1
Lead Element NCO (AL2 RIO)	634	E-6
Lead Element Pilot (AL3 Pilot)	624	O-1
Lead Element NCO (AL3 RIO)	634	E-6
Lead Element Pilot (AL4 Pilot)	624	O-1
Lead Element NCO (AL4 RIO)	634	E-6
Lead Element Maintenance Chief	611	E-7
Lead Element Avionics Specialist	662	E-5
Lead Element Propulsion Specialist	664	E-5
Lead Element Ordnance Specialist	663	E-5

Port Element (F/A-35 Barracuda)

Alpha Flight XOIC/ Element Leader (AP1 Pilot)	624	O-2
Port Element NCO (AP1 RIO)	634	E-7
Port Element Pilot (AP2 Pilot)	624	O-1
Port Element NCO (AP2 RIO)	634	E-6
Port Element Pilot (AP3 Pilot)	624	O-1
Port Element NCO (AP3 RIO)	634	E-6
Port Element Pilot (AP4 Pilot)	624	O-1
Port Element NCO (AP4 RIO)	634	E-6
Port Element Maintenance Chief	611	E-7
Port Element Avionics Specialist	662	E-5
Port Element Propulsion Specialist	664	E-5
Port Element Ordnance Specialist	663	E-5

Starboard Element (F/A-35 Barracuda)

Alpha Flight OPS/ Element Leader (AS1 Pilot)	624	O-2
Starboard Element NCO (AS1 RIO)	634	E-7
Starboard Element Pilot (AS2 Pilot)	624	O-1
Starboard Element NCO (AS2 RIO)	634	E-6
Starboard Element Pilot (AS3 Pilot)	624	O-1
Starboard Element NCO (AS3 RIO)	634	E-6
Starboard Element Pilot (AS4 Pilot)	624	O-1
Starboard Element NCO (AS4 RIO)	634	E-6
Starboard Element Maintenance Chief	611	E-7
Starboard Element Avionics Specialist	662	E-5
Starboard Element Propulsion Specialist	664	E-5
Starboard Element Ordnance Specialist	663	E-5

Bravo Flight (Multipurpose)
Scout Element (E-2D Crusader)

Bravo Flight OIC/ Element Leader (BS1 Pilot)	625	O-3
Bravo Flight NCOIC (BS1 RIO)	634	E-7
Scout Element Pilot (BS2 Pilot)	625	O-1
Scout Element NCO (BS2 RIO)	634	E-6
Scout Element Pilot (BS3 Pilot)	625	O-1
Scout Element NCO (BS3 RIO)	634	E-6
Scout Element Pilot (BS4 Pilot)	625	O-1
Scout Element NCO (BS4 RIO)	634	E-6
Scout Flight Maintenance Chief	611	E-7
Scout Flight Avionics Specialist	662	E-5
Scout Flight Propulsion Specialist	664	E-5
Scout Flight Ordnance Specialist	663	E-5

Port Heavy Element (A-78 Dragon)

Bravo Flight XOIC/ Element Leader (BPH1 Pilot)	624	O-2
Heavy Element NCO (BPH1 RIO)	634	E-7
Heavy Element Pilot (BPH2 Pilot)	624	O-1
Heavy Element NCO (BPH2 RIO)	634	E-6
Heavy Element Pilot (BPH3 Pilot)	624	O-1
Heavy Element NCO (BPH3 RIO)	634	E-6
Heavy Element Pilot (BPH4 Pilot)	624	O-1
Heavy Element NCO (BPH4 RIO)	634	E-6
Port Heavy Element Maintenance Chief	611	E-7
Port Heavy Element Avionics Specialist	662	E-5
Port Heavy Element Propulsion Specialist	664	E-5
Port Heavy Element Ordnance Specialist	663	E-5

Starboard Heavy Element (A-78 Dragon)

Bravo Flight XOIC/ Element Leader (BSH1 Pilot)	624	O-2
Heavy Element NCO (BSH1 RIO)	634	E-7
Heavy Element Pilot (BSH2 Pilot)	624	O-1
Heavy Element NCO (BSH2 RIO)	634	E-6
Heavy Element Pilot (BSH3 Pilot)	624	O-1
Heavy Element NCO (BSH3 RIO)	634	E-6
Heavy Element Pilot (BSH4 Pilot)	624	O-1
Heavy Element NCO (BSH4 RIO)	634	E-6

4.02 Appendix B: Tables of Organization and Equipment for Units Above the MSG Level

To demonstrate how the various MSG's listed above might be combined to create Battalions, Brigades and Divisions, we have also included the following BN/BDE/DIV TO&Es for a sample units being deployed forward with "normal" complements of supporting Units. The sample deployed units use the standard templates listed above and are combined with additional BN/BDE staff to flesh it out and make them combat mission ready.

4.02.1 Battalion Templates

4.02.1.1 Aerospace (Marine Air Wing) (486 Marines)

Headquarters Element

Battalion Officer-in-Charge	602/060	O-5
Battalion Executive Officer	602/060	O-4
Battalion Non-Commissioned-In-Charge	605/065	E-9
Battalion S-1: Administration	066	O-3
Battalion S-2: Intelligence	067	O-3
Battalion S-3: Training and Operations	068	O-3
Battalion S-4: Logistics	069	O-3

Battalion Units

Aerospace MSG (Space Combat) (86 Marines)
Aerospace MSG (Space Combat) (86 Marines)
Aerospace MSG (Atmospheric) (90 Marines)
Aerospace MSG (Atmospheric) (90 Marines)
Aerospace MSG (Medical Evacuation/Heavy Lift) (134 Marines)

4.02.1.2 Armor (515 Marines)

Headquarters Element

Battalion Officer-in-Charge	401/060	O-5
Battalion Executive Officer	401/060	O-4
Battalion Non-Commissioned-In-Charge	410/065	E-9
Battalion S-1: Administration	066	O-3
Battalion S-2: Intelligence	067	O-3
Battalion S-3: Training and Operations	068	O-3
Battalion S-4: Logistics	069	O-3

Battalion Units

Armor (Combined Assets) MSG (100 Marines)
Armor (Combined Assets) MSG (100 Marines)
Armor (Combined Assets) MSG (100 Marines)
Armor (Combined Assets) MSG (100 Marines)
Support MSG (Multi-role Capable, not shown above) (80 Marines)
Battalion Aid Station (MD, Not shown above) (35 Marines, per MD Manual)

4.02.1.3 Light Infantry (485 Marines)

Headquarters Element

Battalion Officer-in-Charge	301/060	O-5
Battalion Executive Officer	301/060	O-4
Battalion Non-Commissioned-In-Charge	302/065	E-9
Battalion S-1: Administration	066	O-3
Battalion S-2: Intelligence	067	O-3
Battalion S-3: Training and Operations	068	O-3
Battalion S-4: Logistics	069	O-3

Battalion Units

Light Infantry MSG (90 Marines)
Light Infantry MSG (90 Marines)
Light Infantry MSG (90 Marines)
Light Infantry MSG (90 Marines)
Support MSG (Multi-role Capable, not shown above) (80 Marines)
Battalion Aid Station (MD, Not shown above) (35 Marines, per MD Manual)

4.02.1.4 Heavy (Powered) Infantry (485 Marines)

Headquarters Element

Battalion Officer-in-Charge	301/060	O-5
Battalion Executive Officer	301/060	O-4
Battalion Non-Commissioned-In-Charge	302/065	E-9
Battalion S-1: Administration	066	O-3
Battalion S-2: Intelligence	067	O-3
Battalion S-3: Training and Operations	068	O-3
Battalion S-4: Logistics	069	O-3

Battalion Units

Heavy (Powered) Infantry MSG (90 Marines)
Heavy (Powered) Infantry MSG (90 Marines)
Heavy (Powered) Infantry MSG (90 Marines)
Heavy (Powered) Infantry MSG (90 Marines)
Support MSG (Multi-role Capable, not shown above) (80 Marines)
Battalion Aid Station (MD, Not shown above) (35 Marines, per MD Manual)

4.02.1.5 Combat Support (358 Marines)

Headquarters Element

Battalion Officer-in-Charge	103/060	O-5
Battalion Executive Officer	103/060	O-4
Battalion Non-Commissioned-In-Charge	104/065	E-9
Battalion S-1: Administration	066	O-3
Battalion S-2: Intelligence	067	O-3
Battalion S-3: Training and Operations	068	O-3
Battalion S-4: Logistics	069	O-3

Battalion Units

Combat Engineers MSG (90 Marines)
Light Infantry MSG (90 Marines)
Medical MSH (100 Marines)
Support (Ordnance) MSG (78 Marines)

4.02.1.6 Non-Combat/Rear Echelon Support (398 Marines)

Headquarters Element

Battalion Officer-in-Charge	103/060 O-5	
Battalion Executive Officer	103/060 O-4	
Battalion Non-Commissioned-In-Charge	104/065 E-9	
Battalion S-1: Administration	066	O-3
Battalion S-2: Intelligence	067	O-3
Battalion S-3: Training and Operations	068	O-3
Battalion S-4: Logistics	069	O-3

Battalion Units

Support-Military Intelligence MSG (82 Marines)
Support-MWR/Public Affairs MSG (78 Marines)
Support-Military Police (82 Marines)
Support-Quartermaster MSG (78 Marines)
Support-Signal Corps MSG (78 Marines)

4.02.2 Brigade Templates

*4.02.2.1 Aerospace (Marine Air Wing),
          Forward Deployed (1242/2086 Marines)*

Headquarters Element

Brigade Officer-in-Charge	603/050	O-6/O-7
Brigade Executive Officer	603/050	O-5/O-6
Brigade Non-Commissioned-In-Charge	605/055	E-9
Brigade S-1: Administration	056	O-4
Brigade S-2: Intelligence	057	O-4
Brigade S-3: Training and Operations	058	O-4
Brigade S-4: Logistics	059	O-4

Battalions Assigned

Aerospace (Marine Air Wing) (486 Marines)
Combat Support (358 Marines)
Non-Combat/Rear Echelon Support (398 Marines)
If deployed as a reinforced Brigade, add the following:
Aerospace (Marine Air Wing) (486 Marines)
Combat Support (358 Marines)

4.02.2.2 Armor, Forward Deployed (2061 Marines)

Headquarters Element

Brigade Officer-in-Charge	401/050	O-6/O-7
Brigade Executive Officer	401/050	O-5/O-6
Brigade Non-Commissioned-In-Charge	410/055	E-9
Brigade S-1: Administration	056	O-4
Brigade S-2: Intelligence	057	O-4
Brigade S-3: Training and Operations	058	O-4
Brigade S-4: Logistics	059	O-4

Battalions Assigned

Armor, without attached Support unit (435 Marines)
Armor, without attached Support unit (435 Marines)
Armor, without attached Support unit (435 Marines)
Combat Support (358 Marines)
Non-Combat/Rear Echelon Support (398 Marines)

4.02.2.3 Light Infantry, Forward Deployed (1971 Marines)

Headquarters Element

Brigade Officer-in-Charge	102/050	O-6/O-7
Brigade Executive Officer	102/050	O-5/O-6
Brigade Non-Commissioned-In-Charge	103/055	E-9
Brigade S-1: Administration	056	O-4
Brigade S-2: Intelligence	057	O-4
Brigade S-3: Training and Operations	058	O-4
Brigade S-4: Logistics	059	O-4

Battalions Assigned

Light Infantry, without attached Support unit (405 Marines)
Light Infantry, without attached Support unit (405 Marines)
Light Infantry, without attached Support unit (405 Marines)
Combat Support (358 Marines)
Non-Combat/Rear Echelon Support (398 Marines)

4.02.2.4 Heavy (Powered) Infantry, Forward Deployed (1971 Marines)

Headquarters Element

Brigade Officer-in-Charge	102/050	O-6/O-7
Brigade Executive Officer	102/050	O-5/O-6
Brigade Non-Commissioned-In-Charge	103/055	E-9
Brigade S-1: Administration	056	O-4
Brigade S-2: Intelligence	057	O-4
Brigade S-3: Training and Operations	058	O-4
Brigade S-4: Logistics	059	O-4

Battalions Assigned

Heavy (Powered) Infantry, without attached Support unit (405 Marines)
Heavy (Powered) Infantry, without attached Support unit (405 Marines)
Heavy (Powered) Infantry, without attached Support unit (405 Marines)
Combat Support (358 Marines)
Non-Combat/Rear Echelon Support (398 Marines)

4.02.2.5 Support, Forward Deployed (1910 Marines)

Headquarters Element

Brigade Officer-in-Charge	101/050 O-6/O-7	
Brigade Executive Officer	101/050 O-5/O-6	
Brigade Non-Commissioned-In-Charge	102/055 E-9	
Brigade S-1: Administration	056	O-4
Brigade S-2: Intelligence	057	O-4
Brigade S-3: Training and Operations	058	O-4
Brigade S-4: Logistics	059	O-4

Battalions Assigned

Combat Support (358 Marines)
Combat Support (358 Marines)
Combat Support (358 Marines)
Non-Combat/Rear Echelon Support (398 Marines)
Non-Combat/Rear Echelon Support (398 Marines)

4.02.3 Division Template, Forward Deployed (11970 Marines)

4.02.3.1 Forward Deployed (11,970 Marines)

Headquarters Element

Division Commander	030	O-10
Assistant Division Commander-Maneuver (ADC-M)	031	O-9
Assistant Division Commander-Support (ADC-S)	032	O-8
Command Sergeant Major	035	E-9
Division G-1: Administration	036	O-6
Division G-2: Intelligence	037	O-7
Division G-3: Training and Operations	038	O-6
Division G-4: Logistics	039	O-6

Brigades Assigned

Marine Air Wing, Forward Deployed, Reinforced (2086 Marines)
Armor, Forward Deployed (2061 Marines)
Light Infantry, Forward Deployed (1971 Marines)
Light Infantry, Forward Deployed (1971 Marines)
Heavy (Powered Armor) Infantry, Forward Deployed (1971 Marines)
Support, Forward Deployed (1910 Marines)
