

FLEET ADMIRAL STEVE PARMLEY

CS@SFI.ORG

bementfire@gmail.com

After twenty-five days of being in office, here is what we have accomplished so far:
We have confirmed the following people for their Fleet positions:

Jeff Higdon
Carol Thompson
Denise Rush

STARFLEET, Chief of Communications
STARFLEET, Chief of Educational Services
STARFLEET, Surgeon General

The following individuals have been promoted to the rank as of that date:

2020-00	Steve Parmley to Fleet Admiral	0101.2020
2020-01	Tony Knopes to Rear Admiral	0121.2020
2020-03	Curtis Viola to Fleet Captain	0102.2020
2020-04	Eric Johannson to Rear Admiral	0115.2020

We currently have others that are up for flag promotion, but they have not been voted on at this time.

ADMIRAL JOHNATHAN SIMMONS

OPS@SFI.ORG

gumbysan@gmail.com

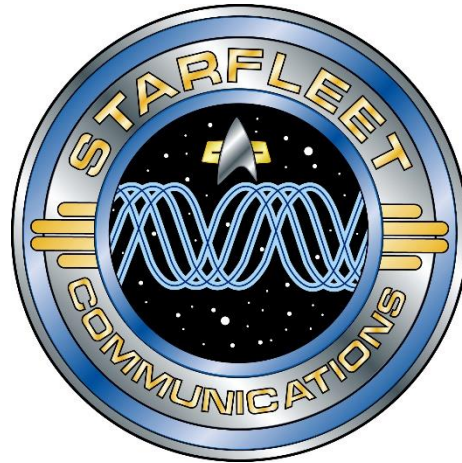

To recap: 44 chapters did not report this month. We are tracking of non-reporting chapters and will begin enforcing the reporting rules in the coming months.

12 Chapters are at 5 members or below. Ops will reach out to these chapters to see if there is anything, we can do to help them recruit more members.

Ops launched the *USS Concorde* in Region 20, Commissioned the *Station Chanuk Bair* in Region 11 and decommissioned the *ISS Katana* in Region 12.

Ops is now fully staffed for the first time in over three years. Correspondence operations reports 5 blank MSR's were filed and was responded to with positive results. 3 of the 5 responded apologetically and only one threatened us with more blank reports.

That wraps it up for this month.

ADMIRAL JEFF HIGDON

COMMS@SFI.ORG

Greetings from the Communications wing of STARFLEET Headquarters.

Things are quite busy in Communications as we are in getting settled into our new positions, advertising to fill our openings, and at the same time getting things rolling for the coming administration.

Acting Vice Chief Eric Johannson has been busy complying a master list of the ships of the fleet, endeavoring to get all our information up to date. If you are a Regional Coordinator, please check your email for an message from Eric about this and get with him ASAP. If you are an RC and did not get an email from him, please reach out to him at comms-vice@sfi.org as soon as possible.

In the offices of the Communique, Acting Editor Dennis Rayburn is working on plans for the CQ and its first issue that will be published at the end of March or first of April of this year. We are working to improve the format of the publication by increasing content about Star Trek and other things related in the magazine but retaining the news and information on STARFLEET that the members have come to expect from it.

We are bringing back one sad feature to the CQ that we feel needs to be done. As time continues its incessant march, sadly members of our organization leave us on their final mission to the other side. Starting with the next CQ, we are bringing back an In Memoriam section for those who left this life since the last issue. If you lose a member and want that person honored in that section, please send us a picture and a short piece about them (recommended two to three paragraphs maximum) to cq@sfi.org for inclusion in the next issue. One word of caution: **please** be sure before doing so you reach out to the family for their consent. **IF** they consent, if you get us an email address for the family member, we will email a copy to them when it is published.

One final thing: if you have an article you'd like to see included into the next CQ, please email it to us at cq@sfi.org by March 10. Also, if you have an idea you'd like to suggest you can email Dennis at that email address or to him privately at starfleetcq@gmail.com and we will get with you about your idea.

ADMIRAL CAROL THOMPSON

ACADEMY@SFI.ORG

alaskahermit@gmail.com

We also appointed the senior officers of the SFA and MACOTC campuses in an Acting status. The SFMCA appointed their own, according to past practices. As per AB directives, the positions for the senior officers (leadership) have been advertised to the fleet and will have, as of February 1, satisfied the 30-day application period.

The most qualified and knowledgeable applicants will be chosen and seated on February 2.

CES OFFICE:

The new Academic Council is working out well, as we communicate with each other nearly every day. I do hope this becomes a permanent tool within the CES office. The Support Administrator is quickly defining his role as administered from the CES Office and is quick to identify and offer resolutions to Support issues across the department. I am discovering just how essential my Vice is to the CES! She brings all issues of consequence to me from both the CS/VCS offices and all three campuses.

SFA CAMPUS:

The Moodle program underwent both an update and a move within SFI's server, which went on a bit longer than expected, due to glitches in export and import of data, and tweaking Moodle's functions once in place and opened. The Academy site was down from January 6 – 14th. Meanwhile people depended on "old methods" to request exams. The Educational Dept. made every effort to service our members and keep them informed.

MACO TRAINING CENTER

The MACO Training Center (MACOTC) branched off from the SFA campus on January 1 and operates on mostly the same SOPs that SFA does. But it will develop its own internal procedures as it grows.

SFMCA

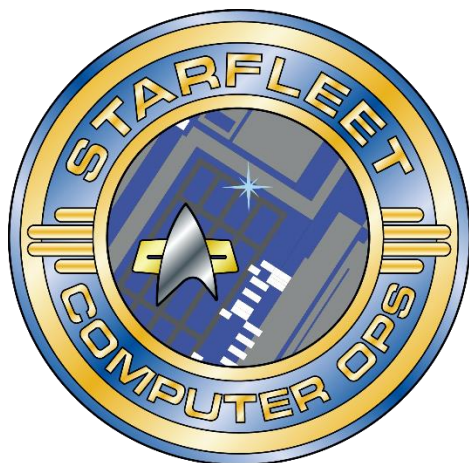

The SFMCA transition to the Moodle platform is progressing as the campus sorts and updates its curriculum, a task that is well overdue. Meanwhile it will continue to operate out of its website until it is ready to switch over to Moodle. They lost a lot of personnel due to the switch to Moodle, so the campus is operating with minimal Colleges. They are also revamping and/or reviewing their materials, especially the manuals, and that is another project that is slowing them up. The SFMCA has reorganized its internal structure to accommodate changes in the Education Dept and to eliminate duplication of operations with SFI.

TRANSLATION AND AUDIO SERVICES

Due to severe earthquakes in Puerto Rico, I have not pressed the PR chapter to report progress on the Spanish translation of our main manuals and exams. There has been no reported progress on either the Audio Files or the French translations. The project is administered on a Facebook page, but it has not yet established its own momentum. It lacks leadership. When duties allow, I will have to appoint a leader for each work team to monitor and keep the projects going.

MOODLE NEWS

The CES and JT, the webmaster of Educational Services has started a new hands-on training program for directors who want to learn the basic concepts of Moodle. This has temporarily been set up as a chat room in Facebook Messenger but will eventually reside within the Forum structure of Moodle itself. The Self-managing Training classroom consists of 3-4 mentors full trained in self-management and a class of around 6 student directors who will conduct a limited course of instruction on how to manage a College within the Moodle platform. Once these student directors "graduate", another batch of student-directors will be brought in. Depending on how this classroom approach works, it very well could become a formal Course within the IOLS.
