AB 20-19 | The most current STARFLEET Academy courses for data privacy and protection approved by the corporate data protection officer (currently SFDPP-101 and SFDPP-102) are annually required to pass for any member with access to other member(s)'s Personally Identifiable Information (PII) in the SFI database, websites, or social media platforms.

As such, but not limited to, all corporate officers, board members, chapter commanding officers (CO) and executive officers (XO) and all respective staff members are required to accomplish this training annually.

Corporate officers/the Executive Committee (EC) are required to ensure their respective staff members have completed and maintain the training, if they have any access to membership data for their job. Any new EC or staff members have thirty (30) days to complete the training from time of appointment. Database access will not be granted until the training is completed.

Board members/Regional coordinators (RC) are responsible for ensuring any staff they grant any RC database permissions to have completed and maintain the training, prior to granting access.

Chapter Chairpersons/Commanding Officers are responsible for ensuring any staff they grant any CO database permissions to have completed and maintain the training, prior to granting access.

STARFLEET Academy(s), and all auxiliary departments: anyone who's duties require access to other member(s)'s Personally Identifiable Information (PII) must complete and maintain the training before being granted database access. Each department will be responsible for tracking their respective staff training compliance.

STARFLEET International must maintain and update data privacy and protection training compliance and understands that the course name and numbers may change in the future; and cover ever more data protection regulations and laws. The most current courses and tests approved by the corporate data protection officer shall be the requirement per this resolution.

All members currently in impacted/referenced roles have ninety (90) days to gain initial compliance with this resolution.

How the AB Voted:

Region 1	FCPT Jason Williams		Aye
Region 2	RADM Ryan Case	2nd	Aye
Region 3	BG Jeremy Carsten	1st	Aye

Region 17	ADM Bran Stimpson		Aye
Region 18	FCPT Mauro Martins		Aye
Region 20	RADM Richard Sams		Aye

This was approved.

AB 20-20 | The AB notes that, as a former CS, Dan Toole was and is fully aware of the need to cooperate with the IG when requested to do so to allow the IG and, by extension, the AB to discharge their duties in an efficient and timely manner, and his unwillingness to do so was disappointing, however, considering his actions to attempt to “save” the IC and the multitude of issues already outside of his direct control, Region moves that that no disciplinary actions need be taken concerning his involvement in the 2019 IC events.

How the AB Voted:

Region 1	FCPT Jason Williams		Aye
Region 2	RADM Ryan Case	1st	Aye
Region 3	BG Jeremy Carsten		Absent
Region 4	ADM David Nottage		Aye

Region 15	COMM Corey Grant	2nd	Aye
Region 17	ADM Bran Stimpson		Aye
Region 18	FCPT Mauro Martins		Absent
Region 20	RADM Richard Sams		Aye

This was approved.

AB 20-21 | For the 2020 IC: As much of the proceedings for the International Conference was handled during the livestream efforts on August 1, 2020 - Region 2 moves that IC 2020, originally to be held alongside BayCon in San Mateo, California, be officially cancelled and efforts begin being made for a virtual annual ECAB meeting as necessitated by Bylaws Section 5.6. The AB would like to formally thank the administration of BayCon for its support and understanding during this trying time and looks forward to future collaborations.

ADMIRAL | JAMES HERRING

Greetings one and all!

I know you are as tired of this COVID stuff as I am. Let's look towards something fun in the future. From the website IC2021.com:

The Theme of the 2021 IC will be the "**Roaring 20's**" (1920s) and we plan to bring a taste of that time period to the weekend. There will be a costume contest with 2 categories, **1- The 1920's** and **2- Science Fiction in General**. So get to work now on your costume and plan to strut your stuff over the weekend!

Also, the Klingon Assault Group hopefully will be there to sign a Diplomatic Relations treaty, thanks to our STARFLEET Diplomatic Corps!

VCS Personnel Changes

My Aide, *RADM Fran Brock* has resigned for personal reasons.

LCDR Gerhard Pretorius, USS Omnis Region 8 is now my new **Chief Wireless Operator-VCS** (new position).

This month was a slow one. The department is continuing to seek input from members on where STARFLEET can improve accessibility. We are also evaluating where to go next with the department.

STARFLEET DIPLOMATIC CORPS CPT AARON HIMES

sfifleetambassador@gmail.com

We have concluded talks with KAG and they will hopefully be sending representatives to **IC 2021**. We are also currently in talks with Fleet 31. They have been given our proposal, so we are waiting on their response and terms.

I have opened a public, that is to all members of SFI, Facebook group for the Diplomatic Corps. Anyone is welcome to join. I will post regular updates there but will be also for you to post any ideas or suggestions you may have.

Nothing new to report.

Still stuck in a cryogenic chamber. The department is waiting till it is safe to return to active duty.

Till then be safe and see you soon.

MACO RADM DENISE RUSH

sfso@sfi.org

We currently have **41 SOU's** and **199 Operatives**.

We took a little hit with having to deactivate 2 large SOU's for non-reporting for 5 months. Our numbers don't add up with the information in the DB because not everyone is officially registered with MACO. There are a total of 354 members affiliated with MACO in the DB, but 136 of those are not listed with any MACO SOU or as an IO. I wish there was a way to correct these numbers in the DB so that they would match.

There have been a couple of changes this last month, this is the updated staffing for MACO:

DIRECTOR OF CYBER OPERATIONS REPORT

The Awards submission form has been created and is in operation on the MACO Website. There have been 9 submissions so far.

The reporting issue with the website seems to have been resolved and reports are now coming in properly to the Group Commanders and the Dir of Ops.

Updates (*such as media*) are being updated to the site as they are provided to me. Matthew Davies has been doing the Discord verifications to the best of my knowledge. I lost John Patrick Jr Brice to ops due to operational demand.

DIRECTOR TRAINING OPERATIONS REPORT

Due to a lack of time to fulfill the duties of *Chief Certification Officer*. I've replaced Ralph Brigham with Thomas Bores. I have sent Thomas all the Training materials and he has started verifying Training Certifications.

I have selected Joel "Rob" Ehl to be the Deputy Director Training Ops, MACO. I have also sent him all pertinent MACO Training materials. He is shadowing me and learning the ropes. I am giving him time to decide which area (training or awards) he would like to be more hands on with in overseeing for me.

CERTIFICATION OFFICERS REPORT

Ralph Brigham was extremely busy with real life and unable to fulfill the duties of the *Chief Certification Officer*. I have selected Thomas Bores to fill this position.

Matthew Davies finished converting the Training certification certificates into editable PDFs. I have updated those, as well as the Publisher format version of all certifications to show Thomas Bores as the Chief Certification Officer.

Number of Certifications earned for this Period: **73**

MACO AWARD OFFICERS REPORT

We have six awards that have been given out since July 22nd.

BASIC TRAINING AWARD

Anne Zecca

John Brice Jr.

Kimberly Biggerstaff

Marie Casalaspro

CURZON AWARD

Michael Stelzer

McCOY MEDICAL

Mike Brown (Bronze)

EDITOR “SECURED FREQUENCIES”

The preview issue is in the process of being finalized. I did not get the input from as many in the team I had hoped for, so had to make some changes.

I have included submission and publication dates for future issues in the preview issue.

I have also posted on the Crossed Daggers page asking for articles for future issues.

PROBLEMS, COMMENTS, OR SUGGESTIONS:

SOU 042: Lockdown continues to hamper group
activities, river tubing event planned for September
hopefully unit will be able to participate in.

SOU131: Potential members have expressed an
interest to join however it appears possible
requirements for weight restrictions may be part of
the requirements to join, however this should be
discussed as there should not be limits on joining
the MACO teams in that form.

SOU763: My apologies for the late report.

PROBLEMS, COMMENTS, OR SUGGESTIONS:

SOU 15: Glad to be part of MACO.

SOU 20: We are just formed and that is the reason three of us have no assigned rank beyond crewman

SOU 031: It is good to see the MACO slowly growing in the fleet.

Suggestion: We could do with some exposure in the main CQ. I offer to write something up or should this come from R&R?

SOU 1001: Some of us are having difficulties with getting exam certificates back from directors in a timely manner.

We understand the time period, but some of the directors are pushing the limit to get it back to us.

Comments: Unit Discussed Uniform and what to purchase. They wanted to be uniform with other MACO units. Suggested we stick with the CAMO MACO Duty Uniform, Duty Belt with a phaser, Black Boots with Zippers to conceal the laces, and a Dark Blue Beret. Unit will have a patch to be later added to the beret.

SOU 1725: The Unit is in its infancy stage. As the Nomad gain's experience, the hope is to grow the unit slowly and have other's gain leadership skills and qualifications over time.

SOU 2020: The form would not allow me to put in the numerical designation of 2020, so I just put in 2000. Sorry.

There were 16 new registrations for August, 2020, a record number for one month since I became director! There were 11 dogs, 1 cat, 1 parrot, 1 horse, and 2 stuffed animals belonging to 9 new and 1 existing pet parent. The total number of pet parents listed is 170 with 386 separate pets, although the information that I have does not include many of the earlier registrations. These include 19 stuffed animals, 168 cats (8 deceased, 3 retired), 157 dogs (6 deceased, 1 given away, 2 retired), 8 birds, 2 raccoons, 3 rabbits, 7 lizards, 2 guinea pigs (1 deceased), 4 tarantulas, 5 snakes, 4 turtles (1 deceased), 2 fish, 2 rats, 1 hedgehog, and 1 horse. There are likely additional deceased pets, but these are all the ones I have record of at this time.

- 1) Our 2020 International Muster on August 1st was a success. I want to thank everyone who was able to join us, We had over 150 marines during the zoom call that included many overseas members. Again Thank you!!!
- 2) Forcecom and DepDant have been adding the names to the DB of those who won awards and also those who attended the IM. Please be patient while they are being added as there are LOTS of names and we need to confirm from the lists.
- 3) Manual revisions are still ongoing. Also we have been adding courses to Moodle again, not all are there so if you are looking for a course not yet on Moodle Courses they can be requested via email to each branch director. Please visit our SFMCA for additional information. [LINK](#)
- 4) If your Brigade is hosting a virtual muster and wishes to invite any members of the GS staff please go ahead and ask as some will try to attend if the schedule permits.
- 5) The new GDPR course is now online on Moodle. all BDE, BN and Unit OIC's will need to take the course as this is Starfleet specific and will help with privacy and security concerns.
- 6) The new SFMC QM is online. if you need your SFMC ribbons or badges take a look. Also, we have placed an order for more ribbons and ranks. Please be patient while we get the order in. Speaking of which, please check the DB and school records before ordering any ribbons, we do verify that you earned those awards before we send them out. We have had to do refunds because of this.
- 7) From FORCECOM... Reminder: Marines are responsible for maintaining their own records. With an eventual Database migration down the road, FORCECOM recommends keeping a printed copy of their DB record just in case.
- 8) From FORCECOM... Marines are encouraged to attend a brigade muster this year. The Brigade Muster Award can now be earned by attending a muster virtually as well as in person. Marines can attend any Brigade's Muster they choose (provided the Brigade hosting allows outside marines – hosting BDE's discretion) and can attend as many musters as they like. Can only receive awards once per year. Will be issued for the first one they attend.

Starfleet Sciences is an informational resource within the old Fleet Resource Center concept which promotes science education and explores the portrayal of science within the Star Trek shows. Starfleet Sciences has a [web site](#) which includes a Chief Science Officer Handbook; in the past month, the number of hits to the web page increased 54 to 5398. Starfleet Sciences also has a listserv and Facebook page; the Facebook page has 2595 lifetime total likes and 1851 daily total impressions for July. A [Pinterest](#) board of science-related events by region is available. A Stellar Cartography department, with [Capt. Michael Krogh](#) at its head, has a goal to promote amateur astronomy through information, advice and communication. Stellar Cartography's [Facebook](#) page is. Starfleet Sciences Director Richard Heim and wife are safe and healthy, continuing to shelter at home, to escape the novel corona virus COVID-19, and teleworking. At work, Adm. Heim was author of the weekly U.S. Drought Monitor product for the July 21 and July 28 maps. Starfleet Sciences receives reports from the regional science officers or liaisons in seven regions (1, 7, 8, 9, 11, 13, and 15). Region One Sciences (also led by Adm. Heim) was active with five ships reporting in July, and Region 7's Comm. Held summarized many new developments in the field of astronomy and space exploration reported by the USS Sovereign. Region One's Adm. Jason Schreck made a plea for STARFLEET members to contribute to the "Save Space Camp" campaign. Space Camp takes place at the U.S. Space and Rocket Center, and the Center is in jeopardy of permanently closing due to financial issues. Comm. Held's summary included reports on: Our Milky Way galaxy may be teeming with ocean worlds; Pluto may have had an underground ocean from the very beginning; Heat gave Jupiter's icy moon Europa layers which may be good news for the search for life; Exposed planetary core spotted circling distant star; Close encounters in the Milky Way, and what they mean for planets; The 'mole' on Mars from NASA's InSight lander may be stuck again; Most of the Milky Way's life-hosting planets may have formed early on; and Where did all the baryons go? July posts to the Starfleet Sciences Facebook page covered such topics as: COVID-19 virus and protective practices (several posts); Star Trek science-fiction becoming science fact and inspiring scientists (several posts); Juno mission to Jupiter; Europa news; TESS exoplanet news (several posts); SpaceX's Starship rocket prototype; science in the Trump administration; electron microscopy; explosive science of fireworks; turning wastewater into a resource; stinging ant species invades Kentucky; 17 ways technology could change the world by 2025; dark matter; galaxies containing 2 black holes; first gene on Earth may have been a hybrid; how Dixie cups became the breakout startup of the 1918 pandemic; and a couple Star Trek COVID cartoons; as well as Science Shows on TV This Week. The most popular posts were the Star Trek COVID cartoons: the one with Enterprise NCC-1701 redshirts waiting to beam down with the caption, "the first wave of people waiting to go back to social gatherings", had 273 views, and the one with Kirk, Spock, and McCoy at the Cestus III Outpost wearing facemasks, and the redshirt with no facemask, drew 193 views. The next most popular post was the Juno mission to Jupiter (viewed by 75 people).

Greetings!

8 Chapters and the majority of regions failed to report this month. I don't think the database is sending me the regional reports. Only three regional reports were received. But, the number of chapters not reporting is the lowest in three plus years. The USS Frank W Ault (R7) is currently the only chapter in drydock.

The following is the SHOC report for 7/15 through 8/15:

7/17 Commissioned USS Firebird
7/26 Commissioned USS Omnus
7/22 Launched USS Excalibur
7/30 Launched USS Gallifrey

I will be taking a leave of absence for the month of September while my wife and I move to new quarters. I will remain in touch via facebook and my personal email.

Until next month!

Greetings and Felicitations!!!

I would like to report that the divisions of the Communications Department are running smoothly. Social Media Services reports that there are still people not following the guidelines set to admit members to our Facebook, Mailing lists and other social media outlets we oversee.

Remember, those who are subscribing to either our Facebook pages or mailing lists, that any Commanding Officer who invites members of their chapter to these social media accounts should make it known to their members that requests made for information need to be made out in full without exception. These requests for information are in compliance with the GDPR regulations of the European Union. These points must be emphasized in your invitations for your membership. Failure to do this will result in those memberships for our social media accounts to be denied and attempted to contact you about those denials be made by our Social Media Representatives. It will be up to you to communicate this to your membership, as our workers are stretch by not only whether to accept or deny certain who failed to comply with the requests of information, but also moderate said social media platforms.

We are requesting that our seasoned members look through your files for old Communiqués. We are missing quite a few of them and would very much like to put them in our files, which you can find at the STARFLEET Database (SFDB). The issues of the STARFLEET Communiqué that we are missing are:

1, 3-9, 13-25, 27-29, 31-41, 44.

We would appreciate your help very much in this effort. Please remember that these CQ's are hard copy and will need to be scanned and sent to us. If you cannot scan and you wish to either contribute a CQ in question or loan a CQ to the association, please contact our Vice-Chief In Charge of Publications and Manuals, Lieutenant TJ Feldman at vice-chief-pub@sfi.org to make arrangements. Again, we would appreciate if you can search through your records to see if you have the CQ's in question.

In fact, we are in search of any manuals, forms or publications whether they be current or from past times. These publications (which we'll call them) can be out-of-date and are usually no longer in circulation. If you have such STARFLEET publications, please contact Lieutenant Feldman at the email address given in the last paragraph. It will be very much appreciated!

Articles, reports, photos, cartoons, graphics and anything else to be Issue 204 of the STARFLEET Communiqué are due by 11:59 PM Central Daylight Time on Tuesday, September 15th. We appreciate all submissions to the CQ, so keep those items coming in!

And the new Division within the Communications Department, Audio/Video Services, is still making headway and growing. During the Virtual IC2020 held on August 4th, I had the honor to announce the launch of a new video show that will cover the news of our chapters, regions, the fleet and especially our members, called "STARFLEET @ LARGE". It will be formatted like the news shows seen on TV and initially will be hosted by yours truly. We will be accepting video reports (and articles) to be seen on S@L. Watch in the CQ (and the next edition of this report) for the date for you to start submitting videos and articles!

Also watch for announcements from both Major Russell Camp, Vice Chief, A/V, and Humanoid resources for your opportunity to help in the making of this program!

The current situation of the world at large is still precarious as a cure for the COVID-19 is still be developed. This means new still means we all need to take necessary precautions in order to keep us all safe. The prayers and good thoughts of the entire Communications Department got to the family and friends of those who passes on into the final frontier after contacting this insidious disease as well as everyone else to stay safe.

Talk to you again in 30!

CES OFFICE

As CES, I have been working behind the scenes to make sure revisions are getting done. I am working with Carol Thompson and the Academic Coordinator of SFA, Cher Schleigh, to get these done. I am pushing the Directors to work on the reviewing of the documents. I have got a person from the CS office to assist as well as we have staff clerks to assist on these all that the Director needs to do is ask for help.

I have worked with Shane and S. Chris Boggs to set up a Google Group email to send MSRs in to the TRACOM and Superintendent as well as worked on getting a SFMCA Services Group set up so they can get work request to the Webmaster.

Working with the Moodle Administrator and Webmaster, we have seen slowness due to the need of a new host which I believe COMPOPS is working on. We also are seeing email issues with @sfi.org not getting to everybody especially those with accounts in places that have blacklisted us. We cannot force people to change emails.

I am also asking the directors, assistant directors, deans, and assistant deans for verification of their emails that they wish to use for the Catalog and Moodle ad asking for permission to use.

SFA NEWS

This month's numbers are up, but I should note that I did NOT count SFDPP in these numbers at all (students or courses) because that would artificially inflate the numbers. The approximate number of students for July was 147, which is a slight increase, and the number of courses was almost 1,850. I definitely hope the increase continues.

The opening of the SFDPP courses was intense, with almost 100 exams taken in both courses combined in the first 24 hours. As of this report, over 400 people have taken one or both of the exams. We have a tracker so that we can see who has finished, and we stand ready to help the different departments and regions determine who is in compliance when the time comes. We are also making plans for next year. The tracker will help with that, and we are working on a question bank so that we can try to have it where the exams are not exactly the same every year. We will also be studying the data from this year to see where we need to make adjustments to the manual and existing questions.

Lastly, we will be looking at new information regarding data protection and PII that can be integrated. One thing that I am noticing is that many of the names I have seen in SFDPP, I am also seeing for the first time in other areas. I think that there are many people who have discovered how easy it is to take the SFDPP on Moodle, and they are deciding to take other courses.

I hope this trend continues. We have welcomed several new staff members, and we have reopened some colleges that had been closed for revision. We hope to open more of our closed colleges very soon. We are also adding more automated courses as we can, and many of our new staff members are dedicated to increasing this aspect.

Work is still continuing on the revision/update project. We are working to make sure that those Directors who need assistance are getting it, through the outside volunteers, staff clerks, and other staff members. I know it may seem like there is little progress being made on that, but overall, the staff is dedicated to making sure we finish this project. As people finish their colleges, we are asking them to assist others who are not as far along. We are working towards the finish line as a team.

SFMCA NEWS

So... one month in and we are making progress. Many of the colleges are on board with sending in an MSR. There are a few who are still not on board but will be soon. There are several colleges who have rewrites going on right now. Moodle is still being updated with new versions of the manuals.

We shall see what happens in the days to come.

STARFLEET MARINES ACCOUNT

The SFMC Bank Account is currently frozen due to the fraudulent check presented against the account in April. All income from Quartermaster sales is being held in the PayPal account until we can get a new bank account opened. I have been informed that the Articles of Incorporation have been updated, however I have not yet been able to set an appointment to get the account open. Will try to do that next week.

This is what the numbers would be if we had the account active.
