

**FLEET STATUS UPDATE | DECEMBER 2020**

# FLEET ADMIRAL | STEVE PARMLEY

[cs@sfi.org](mailto:cs@sfi.org)

[bementfire@gmail.com](mailto:bementfire@gmail.com)

Thursdays are the new day for STARFLEET After Dark, 10pm CST!

I am proud to announce the creating of the rank and position of Master Chief Petty Officer of SFI (MCPOFSI). The most famous enlisted officer was Chief Miles O'Brien of Deep Space 9. The goal is to build up our enlisted ranks and to act as the top senior enlisted. This person will be working with the Educational Services on creating enlisted courses in STARFLEET Academy.

This person will be appointed by the CS and voted on by the Executive Committee. They must be at least 21 years of age, be a member in good standing for 3 continuous years and must have passed OTS, OCC and SFDPP 101 & 102. They will serve a 3-year term just like the Commander, STARFLEET.

The Executive Committee met on December 16 th , 2020 where David Shorey was nominated for MCPOFSI. He was voted on by the EC and approved.

I look forward to working with MCPOFSI Shorey and to continue to move this organization into the future.

Greetings one and all!

As part of Recruiting & Retention, we have created a window cling that can be attached almost anywhere, your vehicle, laptop or fridge. The cost for these will be \$5.00 each (+taxes, shipping & handling). We are working out a way to get the clings to our International Members inexpensively, through their RC's but the process hasn't been totally worked out yet. I wanted to announce this new item as it's something to help raise money for Fleet and it's getting close to the holidays, so this would be a great stocking stuffer for your favorite Trekkie (besides yourself). And it's a great way to show your Fleet pride and also recruit! Please contact Linda Olson, STARFLEET QM to get yours today!

Happy New Year!

This month's report is once again short, however there are a couple things to report.

1. We have had several new members join the All-Access Facebook page and hope this will encourage discussion and suggestions where STARFLEET can improve on accessibility.
2. I received reply from the IC saying they have at least received the All-Access manual and will be reviewing it and getting back to me. I will be in contact with them to improve accessibility.

This month has been active for the Diplomatic Corps. We have launched the Sistership program, with a trial run between the USS Missouri and the USS Animus. We are refining how it will run and coming up with more ideas to foster communication and activities between sisterships. We plan on launching the program by the end of January.

The Food Drive War progresses slowly, as of this writing, SFI has donated 578 lbs. The last update from KAG on Dec 9th was about 300lbs. We are awaiting further reposts from several ships that have reported some activity, but nothing official yet.

We are hoping to open diplomatic relations with more organizations in 2021. We wish everyone a Merry Christmas, Happy Holidays, and Happy New Year.

My last report for 2020, but I feel I have yet to even start. This program is an outreach, where we get out into areas, we have no presence. COVID has pretty much muted this department.

Until such time as we can safely get out, I do not want to raise expectations.

I live for the day this department can become useful.

**MACO**  
**RADM DENISE RUSH**

[sfs@sfif.org](mailto:sfs@sfif.org)

**SFDPP CERTIFIED**

We currently have **46 SOU's** and **214 Operatives**.

This is an increase of 8 members from last month. Our numbers still do not add up with the information in the DB because not everyone is officially registered with MACO. There is currently a total of 369 members affiliated with MACO in the DB, but 152 of those are not listed with any MACO SOU or as an IO. I wish there were a way to correct these numbers in the DB so that they would match.

All MACO Staff have taken the GDPR / SFDPP courses.

On Dec 11, 2020 I petitioned the CS and VCS to have our original name of STARFLEET Special Operations (SFSO) restored. I received confirmation on Dec 18, 2020 to – “Make it so!”.

With that permission given we will be reinstating our name to SFSO on Jan 1, 2021. I want to clarify that only the name will revert to the original SFSO with MACO as a subgroup as it had been before the forced change in Mar 2018. All Training and Awards will remain the same, but the overall title will revert to SFSO.

Because of our continuous growth I will be dividing the IO's into their own grouping to ease the amount of reporting for the Group Commanders. We will have 3 Groups as of Jan 1, 2021.

## **DIRECTOR OF CYBER OPERATIONS REPORT**

There have been some minor changes to the website over the past month. Mostly the documents for Training which are being adjusted as the Academy makes changes to the curriculum.

## **DIRECTOR TRAINING OPERATIONS REPORT**

Joel “Rob” Ehl (JR) has stepped down as the Deputy Director Training Ops, MACO. I have advertised this position with Humanoid Resources and on the Crossed Daggers Facebook Page. I haven’t received any applications.

Due to staffing issues, two colleges, in the Institute of Military Operations (IOMO) are going to be merged into other colleges in the IOMO.

The College of Special Operations Flight (CSOF) will be merged into the College of Special Operations Training (CSOT) on 12/31/20.

The College of Special Operations Resources (CSOR) will be merged into the College of Special Operations Defense (CSOD) on 12/31/20. All Training applications will need to be updated with this new information.

Number of SpecOps Graduates for this Period: **21**

I will review the MACO Certification Officers Report to determine if any Training Awards have been earned by Operatives. This will catch any Operatives accomplishments that weren't sent in via the Award Request Form. I'll send those certificates out monthly.

With the merger of the College of Special Operations Resources (CSOR) being merged into the College of Special Operations Defense (CSOD), an update to the Awards Manual is needed. Currently the Combined Forces Award is earned when completing the CSOU, CSOR and CSOS. Since the CSOR will no longer exist after 12/31/20, we need to edit this award's criteria. These changes won't go into effect until January 1, 2021.

Number of Awards Earned for this Period: **3**

### **TRAINING CERTIFICATION OFFICERS REPORT**

The certification process has been streamlined considerably, with the implementation of the new requirements and the updated MACO Training Manual. The verification process is coming along, still most of the application being received are still incomplete and do not have all the documentation attached. The team leaders and unit commanders will need to ensure that the MACO Operations sheet information is up to date and that they are initialing the operatives training.

*Training Records and Certificates still are not being submitted with applications.*

Number of Certifications Earned for this Period: **14**

### **EDITOR "SECURED FREQUENCIES"**

I have received an offer of help for Newsletter Layout from: Matthew Davies  
Three articles have been submitted for this current issue that is nearly complete.  
Joshua Dadd, Thomas Bores & Robert Richards.

Also still hoping as time goes on more members will submit article suggestions.

Closing date for submissions for next issue will be end of September.

Have received 1 short story for next issue so far. Any and all contributions welcome

### **DIRECTOR OF RECRUITING AND RETENTION REPORT**

I've nothing to report for this month. It has been uneventful in terms of R&R.

There were no new registrations for December 2020. The total number of pet parents listed is 175 with 398 separate pets, although the information that I have does not include many of the earlier registrations. These include 19 stuffed animals, 173 cats (8 deceased, 3 retired), 160 dogs (6 deceased, 1 given away, 2 retired), 8 birds, 2 raccoons, 5 rabbits, 7 lizards, 2 guinea pigs (1 deceased), 2 ferrets, 4 tarantulas, 5 snakes, 4 turtles (1 deceased), 2 fish, 2 rats, 1 hedgehog, and 1 horse. There are likely additional deceased pets, but these are all the ones I have record of at this time.

I do expect some new registrations soon because of new pets acquired during the holidays.

Starfleet Sciences Director Richard Heim and wife are safe and healthy, continuing to shelter at home, to escape the novel corona virus COVID-19, and teleworking. Director Heim continues to work 50-hour weeks; meetings and conferences continue but are virtual events. In November, Richard participated in a North American Drought Monitor Forum workshop and authored two weeks of the [U.S. Drought Monitor](#) product. Starfleet Sciences receives reports from the regional science officers or liaisons in seven regions (1, 7, 8, 9, 11, 13, and 15). Region One Sciences (also led by Adm. Heim) was active with seven ships reporting in November, and Region 7's Comm. Held summarized many new developments in the field of astronomy and space exploration reported by the USS Sovereign. Comm. Held's summary included reports on: Physicists keep trying to break the rules of gravity but this supermassive black hole just said 'no'; the NASA InSight Mars lander's 'mole'; Moon's magnetism might have protected Earth; Volcanoes fuel gaseous atmosphere on Jupiter's moon Io; Meteorite that crashed in Michigan holds extraterrestrial organic compounds; Canberra Deep Space Station communicating again with Voyager 2; Mounting evidence for subglacial lakes on Mars, but could they really host life?; Jupiter's ocean moon Europa probably glows in the dark; Supernova explosions may have helped shape Earth's climate history; and Bringing Mars samples to Earth could cost an extra \$1 billion, but NASA should totally do it, experts say. November posts to the Starfleet Sciences Facebook page covered such topics as: Climate Change Causes Landfalling Hurricanes to Stay Stronger for Longer, and Magma 'Conveyor Belt' Fuelled World's Longest Erupting Supervolcanoes, as well as Science Shows on TV This Week. The most popular post was Science Shows on TV, viewed by 40 people.

Greetings Fleeters! Here are the numbers for November 2020.

22 chapters failed to report this month. In addition, only 2 Regions reported, R7 and R20. It is my suspicion that the database is not sending me all the regional reports and I hereby officially ask CompOps to create a database tool with which I can view and track regional status reports. Currently I have no means of tracking regional reports.

ShOC reports no launches or commissioning for this reporting period.

Since there are no scheduled commissioning for the rest of 2020, I wanted to provide you with a review of the year:

## ***June***

Launched USS Nomad  
Launched USS Amelia Earhart  
Launched USS Masamune

Commissioned USS Vandalia  
Commissioned USS Animus  
Commissioned USS Dorothy

## ***July***

Launched USS Excalibur  
Launched USS Gallifrey

Commissioned USS Russell Casse  
Commissioned USS Firebird  
Commissioned USS Omnis

## ***August***

Launched USS Essex  
Launched USS Septarian  
Commissioned USS Katherine Johnson

## ***September***

Commissioned USS Genesis  
Commissioned USS Chimera

## ***October***

Commissioned USS Rhode Island

## ***November***

Commissioned USS Rising Star  
Commissioned USS Nomad  
Commissioned USS Amelia Earhart

Current there are 10 chapters in training scheduled for commissioning in 2021.

The team at Ops are currently updating all of our manuals and tools for the new year. Be on the lookout for an updated START Manual coming soon.

Support Ship Operations Manual, a new Vessel Registry and a new, updated Ops FAQ are all in the works.

Stay tuned...

Greetings and Felicitations from your Chief Peon in the Communications Department of your STARFLEET! With Christmas and the holidays coming upon us have I only have a few reminders and notes to share with you today.

Articles, pictures, art, and reports for the next edition of our STARFLEET COMMUNIQUÉ, which will be Issue 206 will be Tuesday, March 15 at 11:59 PM. Send your submissions to [starfleetcq@gmail.com](mailto:starfleetcq@gmail.com).

I want to commend the Editor in Chief of the Communiqué, who serves as a Vice-Chief within the Communications Department, General Dennis Rayburn and for his tireless work, along with his editors and the copywriters.

By the time you read this the first audit of our Facebook pages should be completed. I want to commend our Vice-Chief in Charge of Media Services, Rear Admiral Eric Johannson, and is buying staff for the hard work they have been doing.

I also want to commend Marine Captain TJ Feldman for her work as overseeing the gathering of Publications and Manuals for the Communications Department. As the Vice-Chief of that department, she is charged of gathering any manuals and newsletters that Starfleet have, among other things.

I also want to commend our Vice-Chief in Charge of Audio/Video, Lieutenant Colonel Russell Camp and his fine crew which he has gathered for the production of our videos. Look for a more thorough report in issue 205 of our January STARFLEET COMMUNIQUÉ.

Closeout this report I want to wish you, the members of the Best Star Trek Fan Organizations in the World, a very Happy and Safe Holiday Season. Whether you celebrate Hanukkah or Christmas or any other celebrations during the Holiday Season, please stay safe.

That is all for this month.

## CES OFFICE

A year has passed, and the ES has been working hard on material. We have lost staff and gain staff. We are up to 80% complete with colleges aligned to closed until the update is complete.

Let me be the first to apologize to the members for these closures that will happen. I have asked the staff to update these manuals and courses. There were a lot of courses to complete in a little over a year. The staff has worked hard. I do want to say we need to give these staff members a round of applause for those that have worked hard to complete the course revisions and updates.

With the turn of the year, we also see courses that need to merge and courses that seem to be so outdated that they cannot carry forward or not enough traffic to keep it fully open. So please do not fear we are not removing people's grades that they have accumulated. We are just shifting and moving things.

This does lead me into updates on new material. We are looking into new material and hopefully will have those out soon also.

## SFA NEWS

Our numbers have dipped more, with just under 1000 completed courses, and just over 100 individual students (not counting SFDPP). Hopefully some of the new courses and colleges that will be opening in the coming weeks and months will help increase our traffic.

We unfortunately had a breach with regard to the SFDPP exams, and answers were accidentally posted to a regional CO/XO list. In order to make it harder for people to take those answers and use them to cheat, we have shuffled the questions on the PDF version of the exam. We cannot shuffle the questions on Moodle because the exam has already been opened, but since the vast majority of members needing the exams have already taken them, we feel the negative impact is negligible. We are still working out the details on how the retakes will be done moving forward, but we will be making sure that the questions are shuffled to deter cheating.

We are continuing to work on finishing up the revision/update project. We will be having a Zoom meeting with the Deans and Assistant Deans to make sure they are assisting the Directors and Assistant Directors in their colleges.

I want to again thank the Humanoid Resources department, and Lauren White in particular. She is wonderful in working with me on the best ways to get our listings posted and in front of the membership. We are continuing to gain new staff members, and some of our newest ones have quickly become some of our strongest.

I asked the CES to contact the Chief of Operations to make sure that we get an advance copy of the soon-to-be released revised START Manual. My hope is that we can have it one or two weeks before it is released to the membership, so that we can double check that the questions we have on our various exams (including but not necessarily limited to OCC, FOS, and STARFLEET Officers Leadership College) that use this document are still correct. It would be much easier for all if we can have any changes made BEFORE the document is released, so that we do not have to close the exams to do the updates.

## **SFMCA NEWS**

So, we're now in December. It's been a very crazy 5 months. Maritime Operations and Cadet College are currently closed due to their directors stepping down. HR has been notified and I hope to see those colleges reopen the first of the year. We thank the former directors for their hard work and dedication. NCO, MECHA, INF have all been submitted revisions for approval to the GS, which has been granted. These documents have been sent to services for inclusion in Moodle and we are waiting for them to open. The VCS has requested these documents for review, and we hope that he will give his blessing on their immediate update.

As was relayed yesterday, all our current Directors and Assistant Directors have completed the SFDPP courses (101, 102 and 201[if needed]). Extremely happy about that.

The ACA crew has been pumping out certificates for backlogged students and I'm looking forward to their work with upcoming projects. Hazzah!

I am offering the remaining coronavirus com badges for sale with the proceeds going to support the IC this year. We have passed the deadline to cancel and will owe the hotel 50% of the total costs if we cancel now. I am hoping that the vaccine will be good enough to get us more registrations before June.

Expenses - none this month.

Expenses to date.

Hotel deposit - \$500

Patches - \$148.19

domain name - \$25.90

Total expenses to date = \$674.09

I have not yet ordered the com badges.

## **STARFLEET MARINES ACCOUNT**

The SFMC Bank Account is no longer frozen due to the fraudulent check presented against the account in April. All income from Quartermaster sales that has been held in the PayPal account will be moved to the bank account and I will start using the account as soon as I can get a new debit card issued to replace the one that was cancelled. At that time, I will reimburse the Main account for all postage and purchases we have made during the shutdown.

This is what the numbers would be if we had the account active.

Opened the month of November with a balance of \$8044.84

Credits equaled -\$0 PayPal sales \$0

Debits equaled - \$0 postage on quartermaster orders.

Closed the month of November with a balance of \$8044.84

I believe the site was down for some reason this month. We have rarely had a month with no sales before.
